CC Docket 02-6

Perhaps the Master Services contract would better meet your needs. Since ENA is also our voice and managed WLAN provider, the entire contract includes those services as well. I am sending only the part that would relate to the services agreement for broadband.

If this is not feasible, please reach out by contacting me on my cell phone at 208-413-3783.

Sorry, Stefanie, but we need something that is more of a contract than what you sent. Could you send me the communication in which you "informed ENA of the speed [you] wanted"? Otherwise, what you sent me is just a price list, not a binding contract. I presume that ENA confirms receipt of your order in some formal way in case there is a dispute over precisely what you ordered and which price list was in effect.

Thanks.

Hi, Mark. Our 470 was filed for a multi-year contract with scalability built in, and the resulting proposal and subsequent contract is the one I sent you.

Because this is a multi-year contract, we wanted pricing to reflect our options to change our bandwidth during the term of the contract. The pricing is on the second page of the contract I sent and we are free to choose any of the speeds on the list. We informed ENA of the speed we wanted and a separate contract is not needed. We are actually getting a 500 Mbps circuit put in which will be lowered to 400 Mbps service. One other way we signify the speed we select is by filing our 471 with that specific speed.

Please let me know if you have any further questions.
